

Start scanning screen

Name Of The Store

We could also use a more generic language icon

Start scanning

todo: add call shopping assistant button

Scanning the products

(Pop-out: Remove item from the scale)

Start Scan Bags Payment

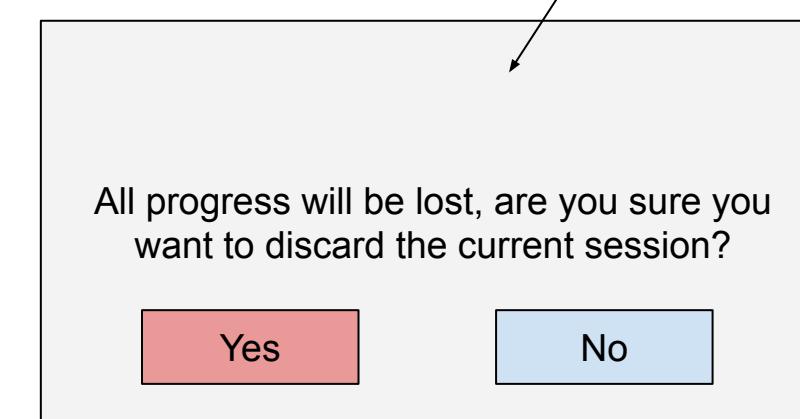

Item 1

Item 2

Total 42.42 €

Discard session Continue

Should the displaying

(Return to previous screen, progress on current screen is saved)

Bag selection

How many bags did you use?

1	2	3
4	5	6
7	8	9
.	0	-

Discard session No Bag Confirm

Should we trust users to input 0 instead of adding more UI elements?

Payment
